

Full Interface Thumbnails

This group of thumbnails explores options for placement of the experience threads' navigation and other elements within the FluidIA interface.

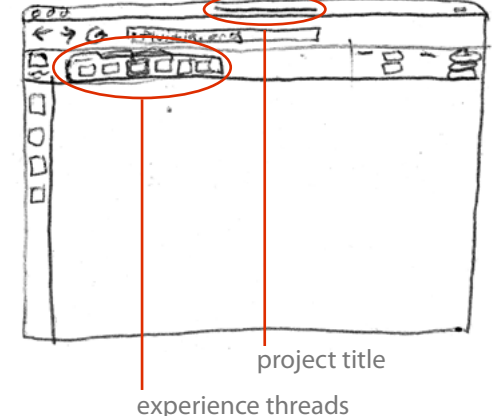

The sketch to the right (x. - Existing on stage.fluidia.org) serves as a default for comparison and also calls out common elements repeated in the sketches below.

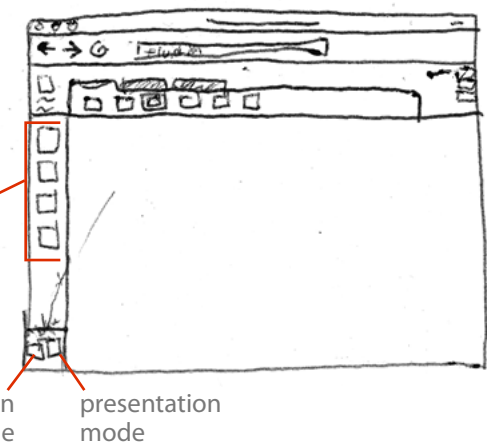

A. - Project Title in Interface

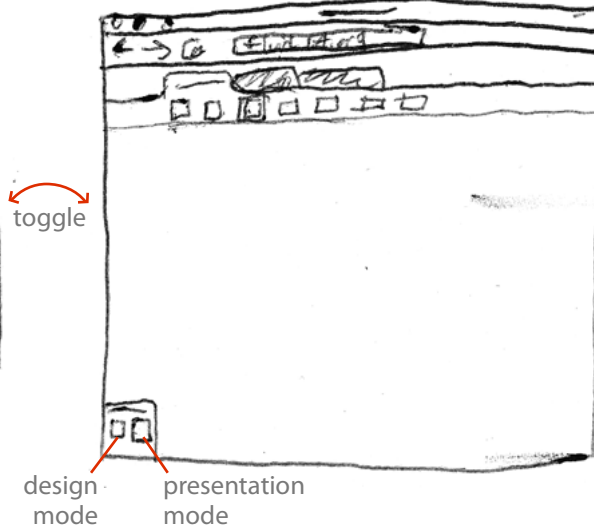

B. - Project Title in Browser Window

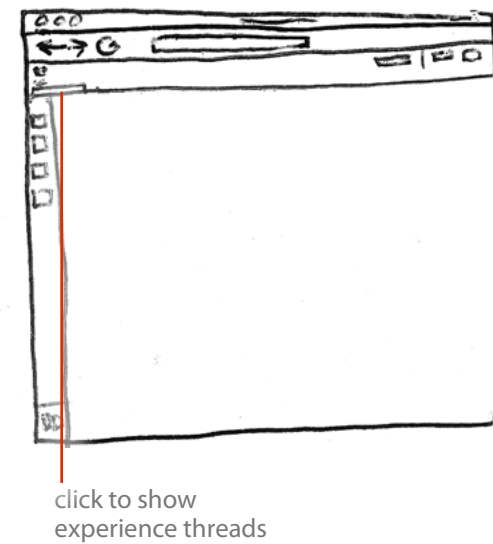

C. - Design Mode

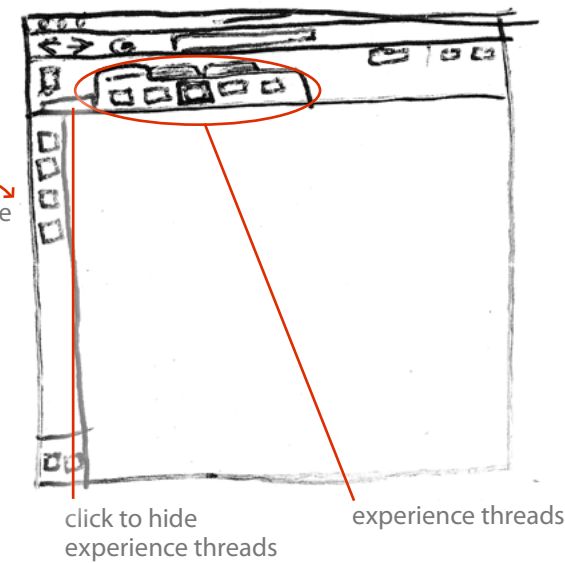

D. - Presentation Mode

E. - Experience Threads Top Hidden

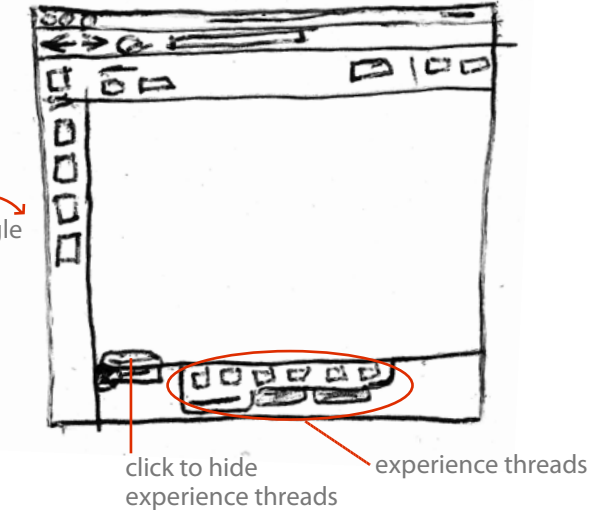

F. - Experience Threads Top Visible

G. - Experience Threads Bottom Hidden

H. - Experience Threads Bottom Visible

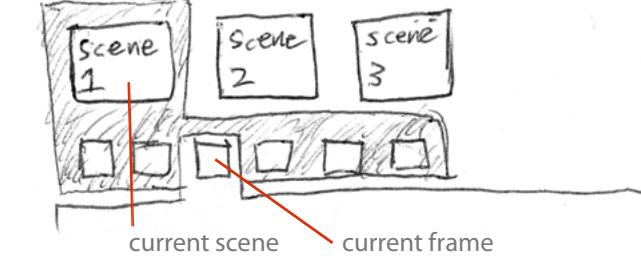

Experience Threads Details

This group of detail sketches explores options for the experience threads navigation element, which would appear within the larger interface (see Full Interface Thumbnails to the left).

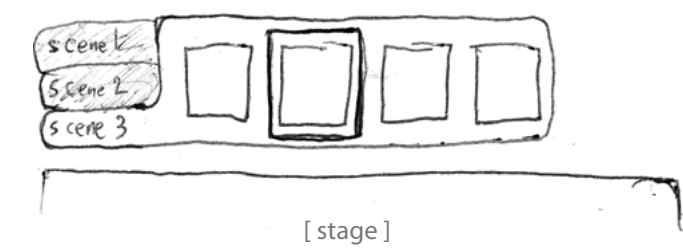

The sketches explore an idea of multiple scenarios or "scenes". Each scene represents a process to be performed. Each scene would contain multiple steps or "frames", representing one step in the process.

The designer would use this interface to select and manipulate frames. Several team members would use this interface to navigate through a project to view independently or present to a group.

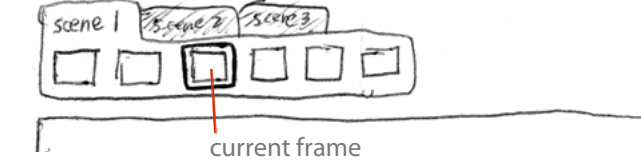

1. - Thumbnail Tabs

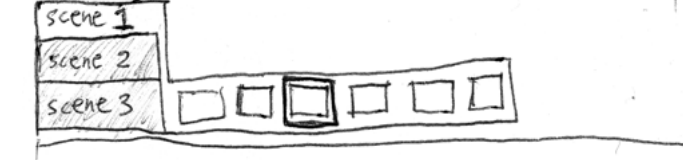

5. - Highlighted Box

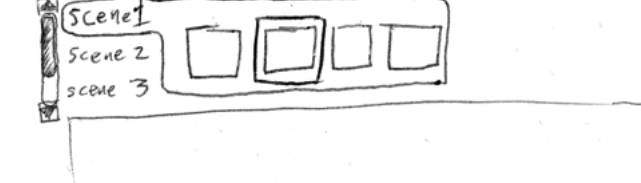

2. - Text Tabs

6. - Small Thumbs

3. - Scrollbar

7. - Horizontal Grid, Highlighted Box

4. - Overlapping Text Tabs

8. - Horizontal Grid, Overlapping Tabs
